

# SPECIALTY SPOTLIGHT

#### **GLITZ N GLAM!**

This past week in glitz and glam our campers got to create heart shaped resin flower keychains from scratch. They mixed the resin, pigments and glitter into a heart shaped mold. After it hardens we attach the keychain and enjoy the final product! We love Camp Orah!

#### **WACKY SCIENCE!**

This week in wacky science we made alka seltzer rockets! Each camper got to decorate their very own rocket. Once they put in the magic white tablet, they watched as it shot into the air!

#### MIDDOS ROOM!

This week in the middos room we have been working on a middos coloring mitzvah book. We start each lesson with a story and move on to the tables . If we have time, to we love to jump rope because the best exercise for the brain is exercise.

There has also been for the older bunks social stories and skits to act out what the options are. We are faced with choices all the time. Being patient, staying the Emes, including friends, not using hurtful words onnas Devarim. The girls have been sooo creative with their skits and how they would handle the situations.
